integra

Simplifying Motor Vehicle Management – Licensing and Fault Management and Charging System

Integra Micro Systems (P) Limited
G5, Swiss Complex,
33, Race Course Road,
Bangalore-560001
INDIA

Tel: +91 80 2250073 /2257027
Fax: +91 80 2203928
URL: www.integramicro.com

Main Features

- **iMVRS is a holistic and user-friendly MV registration system which addresses the needs of a large operations registration authority in a business-efficient manner.**

- **Manages Vehic le registration, licensing, renewal and ownership transfer of vehicles in an intuitively easy and un-laborious manner**

- **Makes sure that there are no violations of business rules**

- **Minimizes the possibilities of wrong data entry, untraceable activities**

- **Provides auditable tracking of important changes in the system**

- **Using distributed database architecture, it provides continuous business operations, even where connectivity, poor bandwidth, and unavailability of central data services are common.**

Additional Features

An SMS service allows officers to query vehicle data with their mobile phones. Just provide the vehicle number plate data, and get back the validity and expiry date of the license!

- **Using smart card technologies, it makes sure that any documents issued by the authority are valid. Thus registration certificates and license disks are easily verified by field officers and traffic police. It is no longer a matter of paper certificates whose genuineness is not known.**

- **Well defined management and audit Reports**
- **Login Authentication using fingerprints**
- **Flexible User and Roles Management**
- **Flexible architecture to accommodate additional features**
- **Built using advanced Technologies**

- **Hassle free tariff formula builder allows authorities to define or modify fee structures as and when required**

- **Police Traffic Fine collection, vehicle documents checkout, offline and online, using NFC Handsets**

- **Payment Gateway for License Fees, Fine and reconciliation system with Banks etcetera**

Founded in 1982, Integra is a provider of high quality technology products and solutions for customers in the Government, BFSI, and Telecom, with an emphasis in India and Africa. Integra has several initiatives and products to its credit.
